(54) Title: PERSONAL ILLUMINATION AND SAFETY DEVICE

(57) Abstract: A personal illumination and safety device (100) employs a flexible plastic rod (300) to distribute the light of a light emitting diode (LED) (600). A small container (200) at one end (301) of the flexible rod houses the LED, a battery (500) and a switch (602, 250, 227) which controls the illumination system. The flexible plastic rod allows the user to adapt the device to a variety of shapes and useful arrangements.
